PROFESSIONAL SUMMARY

Frontend Developer with 3+ years of experience building modern web applications with React, TypeScript, and Next.js. Specialized in multi-tenant SaaS platforms, NFT marketplaces, and DeFi applications in remote international teams. Seeking challenging projects where I can apply my expertise in frontend development, Web3 architectures (Account Abstraction, smart contracts, multichain wallet integration), and generative AI integration to create innovative and scalable products.

PROFESSIONAL EXPERIENCE

Frontend Developer — Memento Academy

May 2025 – Present | Spain · Remote

- Developing high-performance Web3 platforms with Next.js 16, TypeScript, and Tailwind CSS 4.
- Implemented Gasless architecture via Privy, reducing onboarding drop-off rates from 60% to 15%.
- Achieved Lighthouse scores of 99+ in Performance, Accessibility, and SEO across multiple projects.
- Implemented OrgaAI SDK for AI agent integration into Web3 platforms.
- Architected AWS cloud infrastructure (S3, CloudFront CDN, SES, CloudWatch, SNS) managed with Terraform IaC. Automated CI/CD with GitHub Actions using OIDC keyless authentication.

Frontend Developer — LEXTY

Jun 2025 – Nov 2025 | Remote

- Built multi-tenant legal SaaS frontend with generative AI (Alexia AI) for automated contract analysis.
- Developed i18n system supporting 40+ languages and a reusable component library.
- Configured automated CI/CD pipelines with Vercel and GitHub Actions.

Frontend Developer — ENO Network

Oct 2024 – Apr 2025 | Remote

- Developed blockchain-based NFT Marketplace and Launchpad (ERC-721) with multichain integration (IOTA, Arbitrum, ENO).
- Architected multichain wallet system with provider abstraction for unified user experience.
- Built real-time bidding system with WebSocket, optimizing performance in high-latency networks.
- Collaborated with international team of 5 using Agile methodologies.

Lead Developer — Real Estate Start-Up (TokenBricks)

Apr 2024 – Oct 2024 | Malaga · Remote

- Led team of 3 full-stack developers using Scrum methodologies in a remote environment.
- Built scalable Next.js interfaces for fractional property tokenization platform.
- Integrated RainbowKit and Wagmi for investment flows over Smart Contracts.

Frontend Developer — Freelance

Nov 2023 – Apr 2024 | Remote

- Developed web applications with React and Node.js for international clients.
- Contributed to Open Source MERN Stack projects (Freelancer.com, TUBLIAN).
- Implemented React Hooks patterns and Docker containerization.

Web Developer — Alcalink

Dec 2018 – Jun 2023 | Lorca, Spain

- Built websites and e-commerce solutions with PHP, HTML5, CSS3, and JavaScript.
- SEO positioning and web performance optimization, improving Core Web Vitals by 60%.
- Maintained and evolved 20+ online stores and content platforms.
